

Jessica Krug, LEED AP, Project Designer

Ms. Krug has been in the building industry for seven years. Her initial experience after graduating was with Gustavo Kreff, a high-end, single family residential architect in Chile. In 2005 Ms. Krug moved permanently to the US, where she began working as a studio designer with SLA Studio Land, Inc. Ms. Krug joined Asakura Robinson Company in 2006, in mid-2009 she became LEED Accredited and currently serves as designer and project manager working on several LEED registered projects including Houston's first LEED Platinum residence.

Ms. Krug's bilingual skills are critical when applied during public meetings and workshops where communication issues are foremost. In a group setting she can serve as a moderator between end-users, clients, special-interest groups and staff to ensure all information and needs are communicated accurately.
